FANTASY SCIENCE

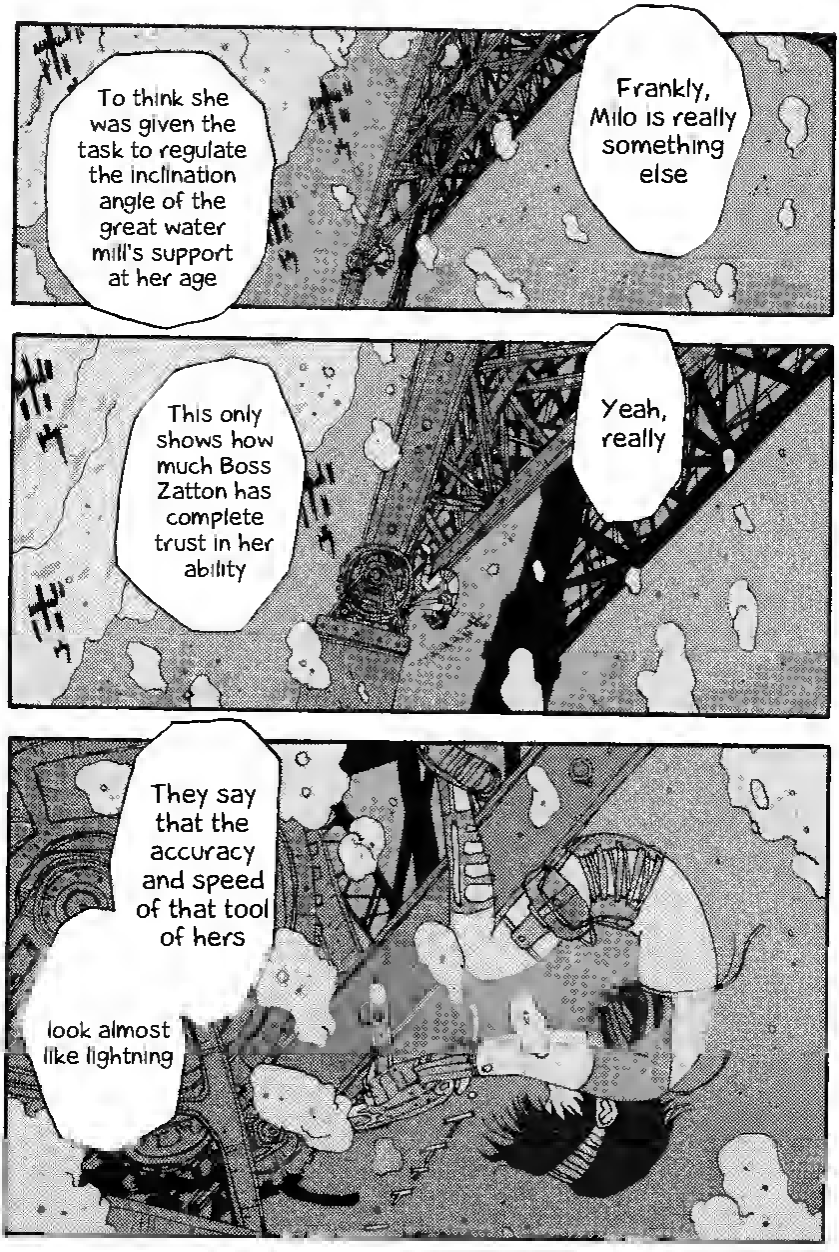
VOL.1

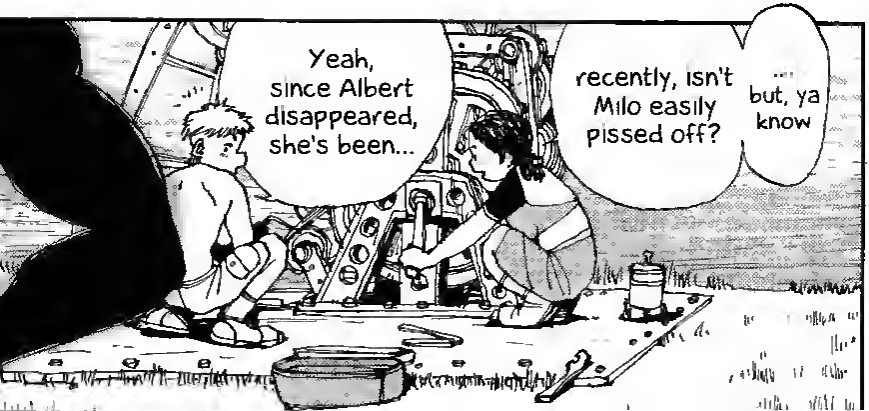
ドドド



To think she was given the task to regulate the inclination angle of the great water mill's support at her age
Frankly, Milo is really something else
This only shows how much Boss Zatton has complete trust in her ability
Yeah, really
They say that the accuracy and speed of that tool of hers
look almost like lightning

But, isn't it true that her tool...
The Balkan, was it ...?
Isn't she that good thanks to this?
They say that by using this Balkan only,
you can do almost everything, they say it's an omnipotent tool
Anyway, unless you're as skillful as Milo,
there's no way you'd be able to handle it
...When all is said and done, Milo is incredible!
Alright, work's done!

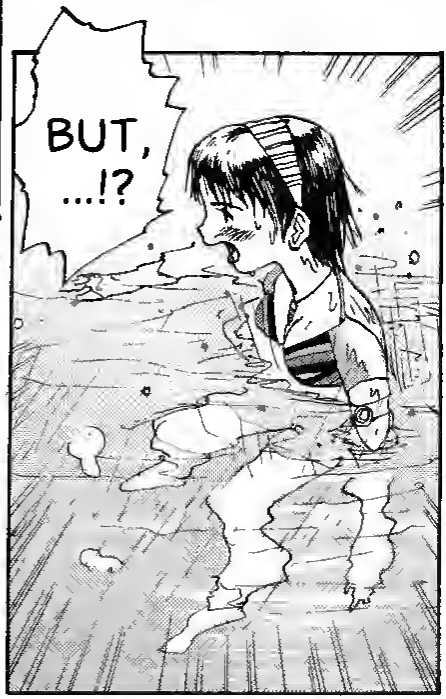
A red light ...!?
I finished it thirty seconds faster that the Boss predicted ...



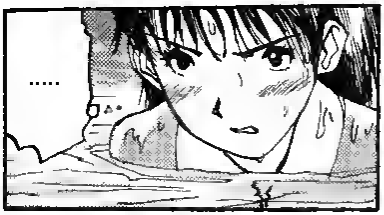
Yeah, since Albert disappeared, she's been...
recently, isn't Milo easily pissed off?
... but, ya know

...For crying out loud, as soon as I stop looking after them, they just slack off work!
How long does it take just to oil the wheels!?
STOP WASTING TIME!!
HEY, YOU MORONS!!
WHOA!! BOSS ZATTON !!
I SAW SOMETHING UNDER THE LAKE !!
BOSS !!
MORON!
If you finished fixing the mill's balance, hurry up and start your next work!
It emitted some red light!
If you lent me the diving suit, I could...

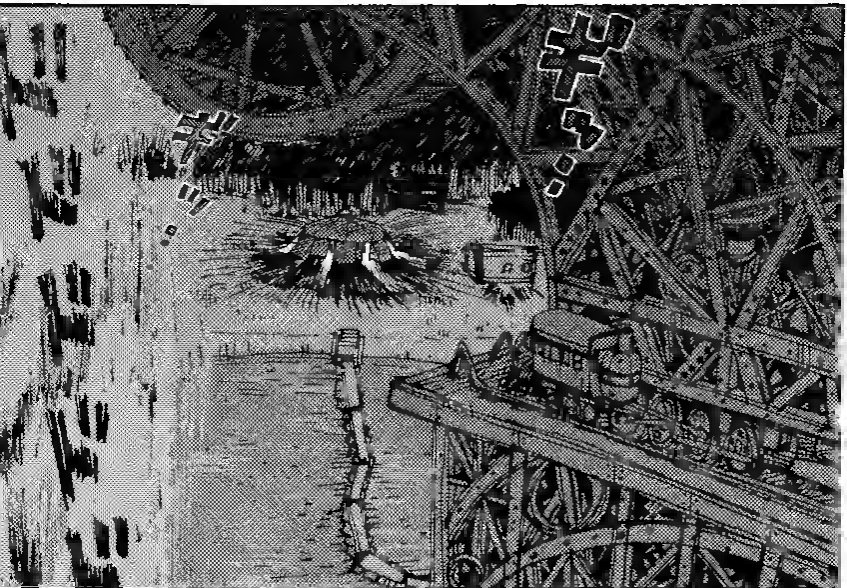
HEY YOU TOO!! KEEP WOR-KING !!
HURRY UP, IT'LL BE DARK SOON !!
Y... Yes...



BUT, ...!?

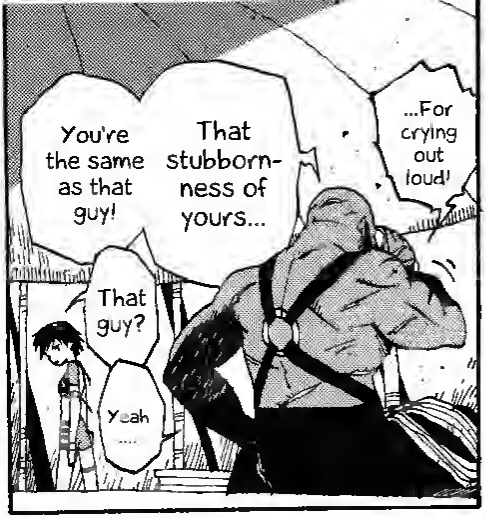


.....



HUMPF !!
I don't know nothing about no red light or whatever.
Anyhow, I'm sure it's just some crap as usual.
I'm getting tired of your "anyhow", Henzo
and soon, you'll have to deal with the Elders!
Keep talking about the "World Above" and things like that so openly,
You're afraid of the Elders, Henzo!?
I never thought you so spineless!
It could even be a message sent byAlbert from the World Above
I just know it's some machinery that came from above the waterfall

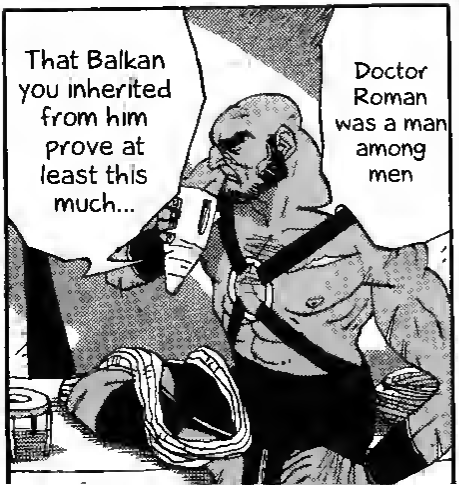
BASTARD!! WANNA FIGHT!?
AND YOU!! WHEN WILL YOU STOP TALKING ONLY ABOUT A GUY WHO DUMPED YOU MORE THAN ONE YEAR AGO !?
We'll be going now
Don't wanna stay here
See you
THE HELL DID YA SAY !?
I DARE YOU TO SAY ONE MORE WORD !!
What...! But... Milo's the one who...
Henzo too, stop trying to pick a fight with her all the time!!
If you don't cut the crap right now, you won't be given any dinner tomorrow!
MILO!! HENZO!!
I'm leaving for today !!
... shit!
Boss's always on Milo's side!



You're the same as that guy!
That stubborn-ness of yours...
...For crying out loud!
That guy?
Yeah ....

MILO!!
ARE YA RUNNING AWAY, HENZO!?

The doctor Roman ....
Your father ...



That Balkan you inherited from him prove at least this much...
Doctor Roman was a man among men

I don't really remember him...
Except from the fact he died when I was just a little kid ....
.....

Go and forget that thing under the lake...
It's all for today, go home and get some sleep
One day, I'll go to the world above the waterfall
.....
Milo
.....
Milo
When that time'll come, I'll have to leave behind this Balkan I received from Doctor Roman.
Yeah
Above the waterfall? Does that mean you'll be leaving the village, Albert...?

WHY !?
This Balkan is a keepsake from your father, so I'll entrust it to you
...Sorry, Milo, but I can't take you with me
As long as I am with you, Albert, I could go anywhere
AH !!
WAIT ALBERT !!
Good-bye...
AI .... !?
ALBERT !!
WHY !?
ANSWER ME, ALBERT !!

It was ...
...a dream

I wonder what's going on...?
What's this noise outside ...?
!?
!!
THE GREAT WATER MILL HAS BEEN ...!?

WHAT THE HELL HAPPENED!?
First, I need to know where is the boss!!
THE MONSTER MOVED!!
RUN!! IT'S GOING TO SHOOT AGAIN!!

Gah!!
What was that !?
The storehouse has been blown away just like that...!?

We should take the Boss there!
Everyone left for the Elder's tower already!
WE'RE NOT SAFE HERE EITHER!!

Are you all safe!?
What else can we do!? That monster is too fast for us, we cant' even go close!!
We can only run away from this thing!!
SHIT!!
Ha! Milo!!
At the same time the boss was diving under the lake!!
It fell off the waterfall and crashed into the mill!!
The Boss !!
We don't know! It appeared this morning and started going on a rampage!!
What the heck is that monster on the lake!?
I saw the water mill and the storehouse, it was its doing too!?

IT'S ALL YOUR FAULT !!
The water mill's support fell on him, he's got a lot of bones fractures and he lost a lot of blood
And since the oxigen pomp of his diving suit got cut, he's now in a coma!!
Be careful !!
What was he doing diving in the morning ..!?
Urgh !!
HERE'S THE CRAP YOU WANTED SO BAD YESTERDAY !!
But... But... The thing I saw yesterday was emitting a red light...
YOU'D BETTER BE GRATEFUL !!
IT WAS FOR YOU THAT THE BOSS WENT DIVING, RISKING HIS LIFE!!

!!
Light came out of the ball when Milo touched it...!
It reacted to Milo !?
!!?
The same symbol is on the Balkan's handle...
But, this symbol inside the hole....
It's not reacting to me...

DONG!!
DONG!!

die
!?
Every-

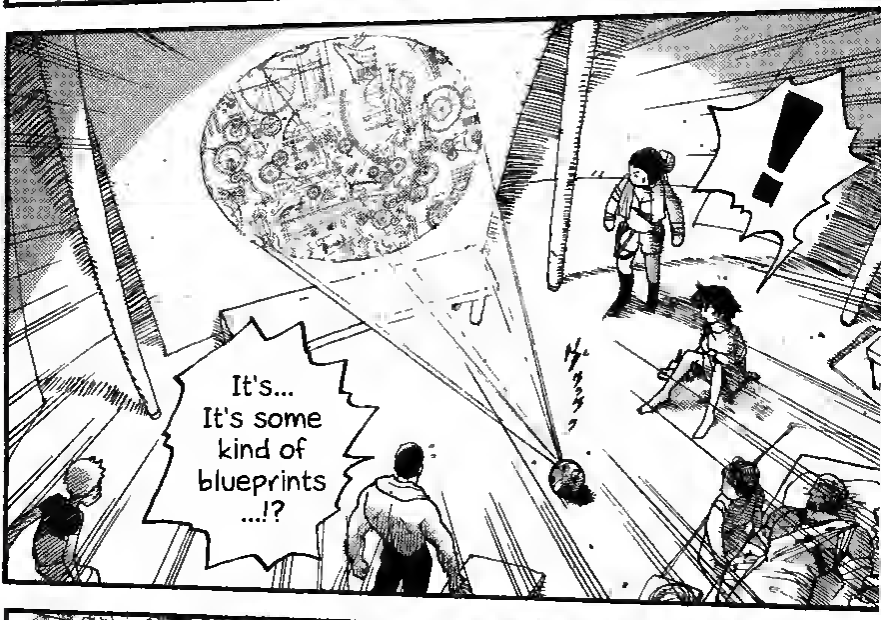
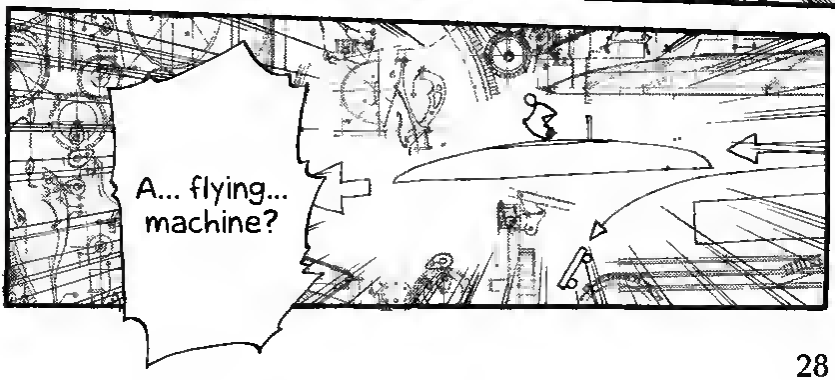
....



!
It's...
It's some
kind of
blueprints
....!?



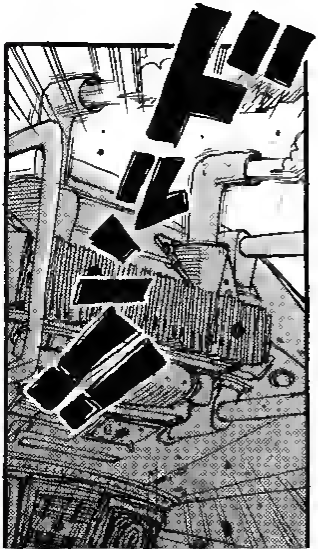
A... flying...
machine?

Those blueprints are really awesome!!
If I use this sphere I can work out the dimensions of the drawings!
I don't get it at all
Milo, you can understand these blueprints!?
With a flying machine like this, you can get closer to this monster .....
I see!! It's basicallly the same system that a discus thrower!!
.....
Everyone... lend Milo... a hand...
I'll be okay, don't you worry about me ...
When did he wake up...?
Beat... the crap... out of that... monster ....
Build... this thing... and...

First, we need to gather the materials!!
Let's see ...

Hey Milo!! Since it's the boss's wish,
why don't you take the building of this machine in your hands !?
Y... Yes !!

We'll use the broken water mill to find what we need, screws, bolts, gears and shaft!!
And I'll need 30 bamboo shoots !!
Rip off the roof of this building, we'll need it too!



ドドド
